

Office Use Only	

To be submitted with a development application. If this form is not submitted with the geotechnical report the report will be refused.

This form is essential to verify that the geotechnical report has been prepared in accordance with Council's geotechnical DCP and that the author of the geotechnical report is a geotechnical engineer or engineering geologist as defined by Council's geotechnical DCP. Alternatively, where a geotechnical report has been prepared for subdivision or is greater than two years old or by a professional person not recognised by Council's geotechnical DCP, then this form may be used as technical verification of the geotechnical report if signed by a geotechnical engineer geologist as defined by Council's geotechnical DCP.
