**This form must be submitted where development must be staged for geotechnical reasons and remediation of the site to an acceptable risk is necessary prior to any further development continuing on the site.**

This form is essential as it provides verification at each stage of the development, prior to the next stage commencing, that the remediation of the site to an acceptable risk has been carried out in accordance with the requirements of the geotechnical report and section 3.3.4 of Council's Geotechnical DCP, and that no unforeseen ground conditions have been encountered which could impact on the integrity of structures on site or related land. The geotechnical engineer or engineering geologist who prepared and/or verified the report must carry out site inspections as determined by the report prior to signing the form.
