Lord Mayor's Message

It's a refrain we've heard quite a lot in recent years, but these are challenging times in which we live.

Our community is at the heart of all we do, and we want to ensure we continue to deliver the functions, services and facilities our residents want, and value.

We take a customer-focussed approach to our work, and in this Delivery Program and Operational Plan for 2024-2025, you'll see Council continuing to prioritise our service delivery.

We're investing in our libraries and community centres, we're dedicating resources to build shared pathways that provide walking and riding links to schools, and we continue to advocate for better transport links on NSW State-managed roads and for public transport.

Our public pools are loved by our community, but they are ageing. We will be undertaking a review of our pools to ensure our investment and service delivery meets the needs of the community into the future.

We're continuing to repair and improve essential infrastructure like our stormwater management systems to reduce the risk of flash flooding and drainage in some sports fields, to combat the impact of changing weather patterns which are the result of climate change.

While we continue to be challenged by the cost of building materials, and interrupted supply chains for construction materials, we're focussed on delivering infrastructure projects like the work currently underway that will see Beaton Park become a Regional Tennis Hub with 8 of the 14 new courts constructed to an International Tennis Federation standard.

The new integrated Community Centre and Library facilities for the city's southern suburbs and for Helensburgh remain top of the agenda, and we're building a new waste cell at Whyte's Gully and developing and expanding the landfill gas management system at the site.

This is the last Delivery Program and Operational Plan for this term of Council, and it's one that clearly demonstrates a proactive and community-focussed pathway forward for the organisation.

I encourage everyone to read it and see what we're doing for you, your neighbours, your suburb and your community.

There is a hardworking and passionate team at Wollongong City Council and this document is testament to what they do day in and out to make Wollongong a great place to live, work and play.

Wollongong City Lord Mayor
Councillor Gordon Bradbery AM

General Manager's Message

I am pleased to present the Delivery Program 2022-2026 and Operational Plan 2024-2025 which outlines the actions we're committed to delivering for our city and our community over the next few years.

We are continuing to focus on making sure we get the basics right. The community over the past twelve months has provided feedback on our services, facilities and projects. We are committed to responding to this feedback. We will continue to invest time and resources into improving community engagement and customer experience. Our community has asked us to continue with our focus on local suburbs. We've thoughtfully planned what we'll deliver, with a strong focus on delivering projects that will help build communities in our suburbs.

Council continues to maintain a strong financial position, but we're not immune to the current economic pressures. We acknowledge that residents and businesses are experiencing challenges. We have been mindful and respectful of this when preparing our plans. Given the current environment, we're being prudent in what we commit to delivering. This equates to ensuring we do everything possible to deliver whatever it is we say we are planning to deliver. We are focused on transparency and will report to the community monthly on our financial position and quarterly on our progress against these plans.

These plans are focused on enhancing and supporting the liveability of our community and delivering the quality services that our community want from their Council. We're planning over 150 road upgrades across our Local Government Area and continuing to invest in footpaths, shared paths, and dedicated cycleways to make it safer for kids to get to school and more enticing for people of all ages and all skill levels to participate in active modes of transport.

Wollongong is a city with incredible natural beauty. These documents set out our plans to care for our coastline and natural areas through investment in conservation and restoration projects, as well as introducing more sustainable waste management practices. We're also focused on the safety of our community through natural disasters and investing in upgrades to our stormwater services to reduce the risk of flooding.

On the 6 April 2024, our community experienced a severe weather event, impacting many suburbs and resulting in significant damage to community assets, Council buildings and critical infrastructure. This event was declared a natural disaster; the sixth natural disaster for Wollongong since 2019.

Clean-up and repair work resulting from the April 2024 natural disaster will impact Council's budget moving forward. This challenging operating environment requires significant ongoing focus and attention.

Council has strong relationships with other levels of government and will continue to work closely and tactically to advocate for our community with securing support and funding towards recovery and future resilience.

As our city's population grows, we're investing in major infrastructure works to improve access to the areas around West Dapto, including West Dapto Road and Cleveland Road. We're also ensuring the new developments in these areas are well thought out with footpaths and green spaces to build liveable communities.

I hope you feel as inspired as I do, reading these important plans for our future. This Delivery Program 2022-2026 and Operational Plan 2024-2025 sets out a clear framework for the future that will build our city's resilience, continue our financial sustainability and connect our community.

About Council's Delivery Program and Operational Plan

Image: Kembla Street, Wollongong separated cycleway - dedicated cycling space

The Delivery Program and Operational Plan sets out the services the Council will deliver over the next four years.

The Delivery Program and Operational Plan includes the services Council will deliver in response to the aspirations outlined in the Our Wollongong Our Future 2032 Community Strategic Plan. Council is not solely responsible for the implementation of the Our Wollongong Our Future 2032 Community Strategic Plan. It is the community's Plan, and Council works together with business, government, community groups and individuals to deliver the community's aspirations.

The Delivery Program has been prepared in response to community engagement and feedback, as well as Council's legislative responsibilities.

The Delivery Program and Operational Plan have been developed utilising the resources available through the Resourcing Strategy 2022-2032.

Reporting to Our Community

Wollongong City Council regularly tracks and monitors the Delivery Program and Operational Plan, and reports to the community on progress on a quarterly and annual basis. Council also tracks progress towards the Community Strategic Plan through the State of the City Report. All reports will be available on Council's website.

Delivering to our Community

Over the last few years, our community has faced many challenges from bushfires and floods, and the COVID-19 pandemic. Council has responded to these challenges by adapting and changing the way it delivers its services to best support the needs of the Wollongong community.

While we need to plan for the future, Council will continue to review this Delivery Program and Operational Plan to ensure that service provision is appropriate and responsive to the changes facing our community.

Council's Strategic Priorities

To focus Council's attention on this outcome the Councillors identified five key focus areas for the life of the Delivery Program. These are known as the Council's Strategic Priorities.

Localised Suburbs and Places

Our localised suburbs and places will be well planned so that they are liveable and safe. This includes important transport infrastructure and footpaths, as well as the necessary facilities and spaces are available for a variety of uses for communities. We will endeavour to maintain and protect the unique character of our local areas and encourage community spirit and civic pride through appropriate activities and land uses.

Sustainable Wollongong

Achieving a sustainable future and addressing a changing climate are a significant focus during this Council term. Our program includes the implementation of key priorities including reducing emissions and reducing waste to landfill, continuing urban greening and protecting our natural environment.

Active Transport and Connectivity

We are planning for and progressively working towards an integrated and active transport network with improved connectivity across the Local Government Area. We will continue to facilitate the upgrade of our public transport, bicycle networks, pedestrian access routes and safety around schools. This focus will see further investment into our footpaths and cycle ways, complementing our commitment to our suburbs and places.

Business and Investment

We will continue to grow the Wollongong economy through jobs growth, attracting business, investment, major events, and tourism to the region. We will continue to promote our local advantages, including our proximity to Sydney, supportive business environment, innovative ecosystem, world class university and superb liveability. We will work with key stakeholders, including peak business groups and state and federal governments to further promote our city and attract greater investment in infrastructure and other key assets.

West Dapto

We will continue to work in collaboration with key agencies to provide the infrastructure needed to support West Dapto's existing and growing community and employment lands of the urban release area. This will include coordinated planning for access improvements including new roads and bridges which are needed to support the expected 19,500 total housing lots and 8,500 jobs required over the next 30 years.

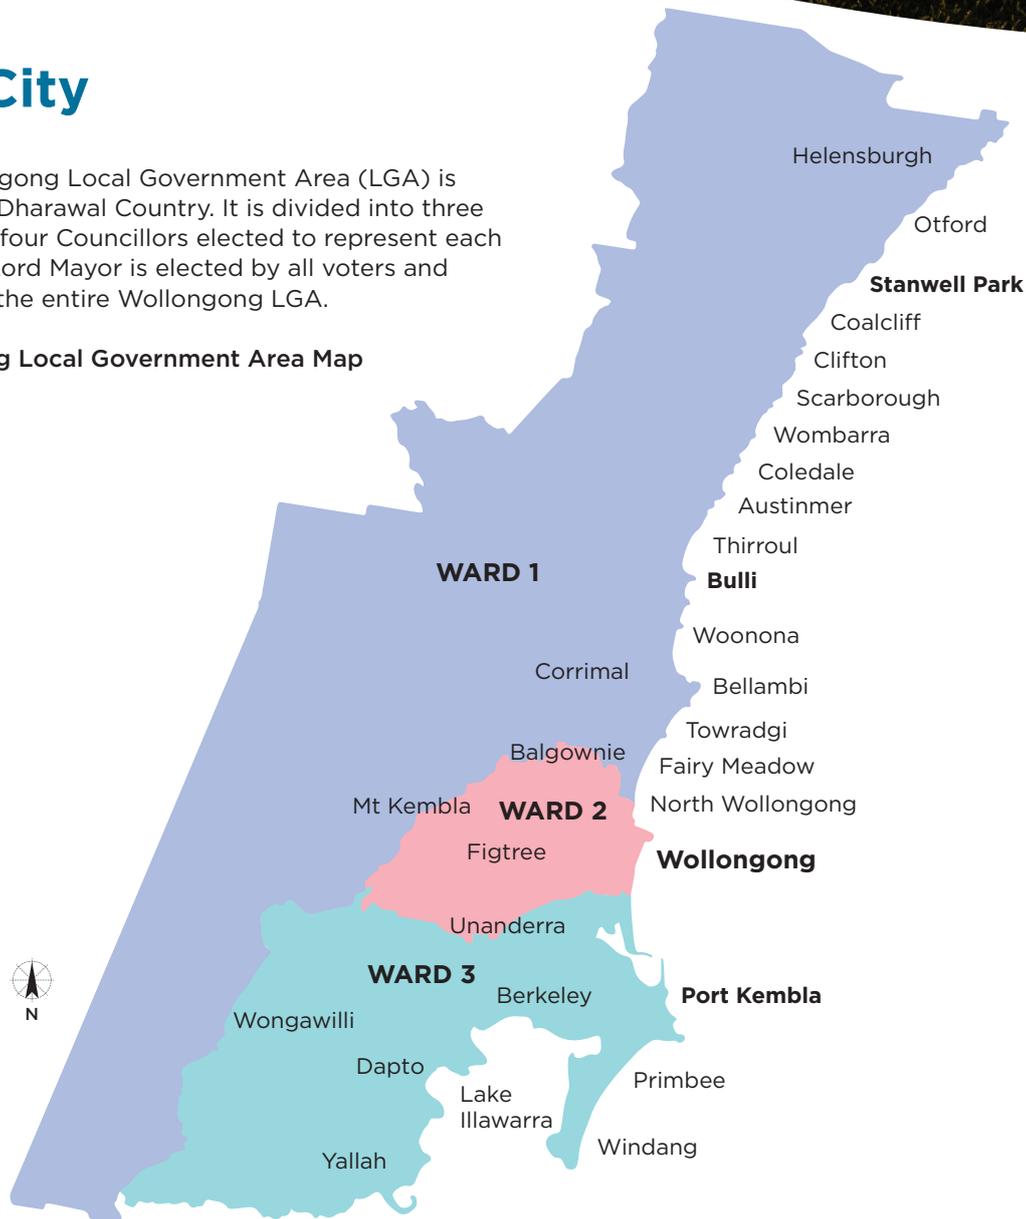

Who we are Planning for

Snapshot of the Wollongong Community

Wollongong is said to originate from the Aboriginal word Woolyungah, meaning Five Islands. The fourth largest city in New South Wales and 11th largest city in Australia in terms of population (ABS - significant urban areas).

The median age of the population of Wollongong was 39 years. We have an ageing population, 18.6% of our community are age 65+.

In 2021, 22.4% of households earned a high household income (\$3,000 per week or more) and 23.7% of households earned a low income (\$0 to \$800 per week).

In January 2024, 5.6% of Wollongong's working age population were eligible to receive jobseeker allowance or youth allowance (excluding students), up from 5.1% in November 2022.

A total of 74.9% of the population of Wollongong stated they were Australian born (4.1% not stated). Of the 21% born overseas the five main countries of birth were United Kingdom, North Macedonia, Italy, India and New Zealand.

Separate housing provided accommodation for 66.3% of the Wollongong LGA population; 20.5% occupied a medium density dwelling; while 12.3% occupied high density dwellings. In Wollongong City, 60.9% of households were purchasing or fully owned their home, 23.1% were renting privately, and 6.8% were in social housing in 2021.

Wollongong's estimated population forecast for 2024 is 221,567. It is projected that the population will increase to 242,182 by 2032.

Information was taken from .id Community Demographic Resources 2023, 2021 Australian Bureau of Statistics, Census of Population and Housing, compiled and presented by .id

Image: Children on Corrimal Beach

In 2021, 29.3% were couple families with children compared to 33.2% in 2001.

And 11.2% were one-parent households compared to 10.9% 2001.

25.4% of households were lone person households, with almost half of these people over the age of 65.

In 2021, the median weekly mortgage repayment was \$500 and the median weekly rent payment was \$390 compared to \$500 and \$420 respectively for New South Wales.

Wollongong LGA's unemployment rate was 3.8% in December 2023 compared to 3.3% for New South Wales.

In 2021, there were 6,944 people in the Wollongong LGA who identified as Aboriginal or Torres Strait Islander, representing 3.2% of the total population (estimated resident population).

English was stated as the only language spoken at home by 79.8% of the population. The five most common languages other than English spoken at home are Macedonian, Arabic, Italian, Mandarin and Spanish.

In 2021, 52.2% of people who live in Wollongong indicated they travel to work in a motor vehicle, 1.2% travelled by train, 0.9% travelled by bus and 2.4% used active transport. 0.9% traveled by truck or motorcycle and 15.5% did not work, while 0.3% did not state a method of travel. In 2021, 26.6% of the population worked at home up from 3.5% in 2016.

Listening to our community

Community engagement is how we reach out and encourage our community to talk with us about the plans, projects and policies we develop on their behalf. Community engagement helps us make better decisions, it builds relationships and trust; builds a sense of belonging; and keeps the community informed. The feedback we receive from community is considered along with legislation, policies, technical assessment, financial, environmental and social impacts.

The COVID-19 pandemic has changed the way we connect and engage with our community and we have continued to use new methods to ensure

we reach our community, particularly the isolated and vulnerable. We are committed to providing opportunities for everyone in our community to help us make informed decisions.

An extensive engagement process was carried out as part of the review of the Our Wollongong Our Future 2032 Community Strategic Plan. A total of 8928 voices informed the development of the Community Strategic Plan. The feedback informed this Delivery Program and Operational Plan, where Council's 33 Services work to deliver the community's aspirations.

Delivery Program 2022-2026 and Operational Plan 2024-2025

Council's Delivery Program and Operational Plan responds to the community's vision and goals and outlines the services and projects that Council has capacity to deliver. It is a result of rigorous planning and prioritisation and aims to provide the best valuable services to the community. The Resourcing Strategy 2022-2032 outlines the finances, assets, workforce and information management technology that will be used to achieve the Program and Plan.

Council's Services form the foundation of the Delivery Program and Operational Plan. Council's Services are presented under their best fit goal. Council's internal Services form an additional group called Support Services to demonstrate that these Services support the delivery of all goals.

Council reviews its services as part of a continuous improvement approach based on community feedback, with the aim of creating efficiencies and improving service delivery. Council's Service Optimisation Program aims to monitor and adjust service levels and resources to ensure the services we deliver are sustainable and relevant, balanced against community needs and expectations.

The Service Optimisation Program methodology includes review of community and customer feedback and engagement activities, including our Community Satisfaction Survey and Community Wellbeing Survey results. Council may undertake additional engagement activities in accordance with our Community Engagement Council Policy.

Using an evidence-based approach, grounded in community and customer sentiment, the services to be reviewed in the 2024 - 2025 financial year have been included in Integrated Customer Service and Transport Services. Progress and outcomes will be reported in Council's Quarterly Reviews and Annual Report.

Our Wollongong Our Future 2032 Community Strategic Plan

Goal 1 | We value and protect our environment

Objectives

We will work together to reduce emissions and the effects of a changing climate.

Our natural environments are protected, and our resources will be managed effectively.

Development is well planned and sustainable and we protect our heritage.

How will we get there?

1.1 The community is actively involved in the expansion, improvement and preservation of our waterways, green corridors and other natural areas connecting the escarpment to the sea.

1.2 Manage and effectively improve the cleanliness, health, biodiversity of land and water including creeks, lakes, waterways and oceans.

1.3 Increase our resilience to natural disasters and a changing climate to protect life, property and the environment.

1.4 Work together to achieve net zero carbon emissions and reduce waste going to landfill.

1.5 Maintain the unique character of the Wollongong Local Government Area, whilst balancing development, population growth and housing needs.

1.6 West Dapto urban growth is effectively managed with facilities and spaces to support the future community.

1.7 Develop and implement programs and projects that achieve proactive heritage management, education and promotion.

Goal 1 | We value and protect our environment

Development Assessment

Responsibility *Manager Development Assessment and Certification*

Why

Council is required to fulfil its legislative requirements for development assessment processes. Council's focus is to ensure a process that provides community confidence, transparency and a balanced approach to development while meeting our legislative obligations.

What

The service undertakes assessment and determination of planning matters and includes: development applications; construction certificates; complying development; building and subdivision certificates; pre-lodgement advice, managing panels; Fire Safety Statements and upgrades; building compliance inspections; audits on completed buildings; providing expert evidence in Land and Environment Court Appeals; and advice to Council and stakeholders in all aspects of the development assessment process.

Our Wollongong Our Future 2032 Community Strategic Plan

Goal 6 | We have affordable and accessible transport

Objectives

There is an increase in sustainable transport use including public transport, walking, and cycling.

Transport links and connection to Sydney, the South Coast and Southern Highlands are strengthened.

The community have access to a safe, affordable and reliable transport network.

How will we get there?

6.1 Plan for the delivery of multi-modal public transport together with sustainable transport modes such as the Gong Shuttle, walking and cycling to meet the community's needs.

6.2 Wollongong continues to build infrastructure and programs to fulfill its role as a UCI Bike city.

6.3 Effective and integrated regional transport with a focus on road, bus, rail and freight movement (including the port of Port Kembla).

6.4 Plan and provide sustainable infrastructure for safe and liveable places integrated with the environment and accessible to key transport routes.

6.5 Advocate for strong transport links within the Local Government Area and connections to Sydney, the South Coast, and the Southern Highlands to provide physical and economic opportunities.

6.6 Improve active transport links and connectivity to our unique places and spaces, including marine access along the Local Government Area and accessibility from the Central Business District to the foreshore.

6.7 Maintain the service levels of our roads, footpaths and cycleways to an acceptable standard.

6.8 Community transport options for frail older people, people with disabilities and the transport disadvantaged are actively promoted and available.

Goal 6 | We have affordable and accessible transport

Funding at a glance

The charts and tables below provide a snapshot of Council's estimates for sources of revenue and expense categories for 2024-2025. More detailed information is provided in Attachment 1 - Budget 2024-2025 and Attachment 3 - Revenue Policy, Rates, Annual Charges and Fees 2024-2025.

The Delivery Program 2022-2026 and Operational Plan 2024-2025 is based on Council's assumptions and indices including

a 5.0% rate increase set by the Independent Pricing and Regulatory Tribunal (IPART).

The rapid increase in some current costs and future cost estimates has already created a gap between the IPART approved Rate increase of 5.0% and Council's estimated costs for 2024-2025 and beyond. Further detail is provided in the Budget 2024-2025 and Revenue Policy, Rates, Annual Charges and Fees 2024-2025.

Council's Supporting Document Roadmap

Our Wollongong Our Future 2032 Community Strategic Plan represents the highest level of strategic planning undertaken by Council. Council has many other strategies and plans for specific focuses that are developed following planning and engagement.

Council refers to its adopted strategies and plans as Supporting Documents. These direction setting documents support the development of the Community Strategic Plan, Council's Resourcing Strategy, Delivery Program and Operational Plans.

These documents include goals, strategies and actions specific to a project or location. However, until the actions are enabled through resourcing and included in the Delivery Program and Operational Plan, they remain aspirational.

Council's Supporting Documents have been considered in the development of the Community Strategic Plan. These Supporting Documents have been informed by extensive data, research and community input, making them an important source for consideration in the future vision and goals for the Wollongong Local Government Area.

The United Nations Sustainable Development Goals (Global Goals)

The Global Goals were agreed and adopted by the United Nations member states, including Australia, in September 2015 as part of the 2030 Agenda for Sustainable Development. Seventeen Goals underpinned by 169 targets will guide efforts to increase global well-being by addressing some of society's key challenges.

As the goals relate to the global environment, some of the issues that are explored are not as relevant to Wollongong as they are to developing

countries. There are other goals, such as Sustainable Cities and Communities that are very relevant to Local Government, and focus on urban planning and accessible transport.

Each of the Global Goals have been considered in the preparation of this Plan, and where there is alignment, the Global Goals have been mapped to each strategy in this Community Strategic Plan, and linked to our local goals below.

Appendix 1: Our Wollongong Our Future 2032 Community Strategic Plan Planning Principles

Our Wollongong Our Future 2032 is underpinned by the Social Justice Principles of equity, access, participation and rights. These principles are our community's 'rights to the city' and are reflected throughout this document via the provision of infrastructure, recognition of our diverse population, and through democratic and effective governance.

These principles have also been applied in the development of this Delivery Program and Operational Plan.

Our Community Engagement Policy outlines Council's commitments and principles for engaging with our community. In developing the Community Strategic Plan, we wanted to push our engagement goals further than we have before and aimed to:

Increase the accessibility of our engagement

Use Plain English, Easy English, translated materials and various engagement methods.

Increase the diversity participants

Use methods to reach people with disability, Aboriginal people, CALD, LGBTQIA + community, people experiencing homelessness, young people and children.

Understand the aspirations of our community

Undertake meaningful engagement, ask purposeful questions and use methods to ascertain the vision our community has for Wollongong.

Create a memorable, innovative campaign

Use new and creative approaches to spark interest and engage with our community.

Our Sustainability Commitment

Wollongong City Council will work to protect our local environment, reduce the use of natural resources and to support our quality of life for present and future generations. We will demonstrate leadership and responsible planning and decision-making to avoid any harmful local and global effects of our actions. We will also work in partnership with the community, stakeholders and other government organisations to achieve our sustainability and climate change commitments.

A quadruple bottom line approach, based on achieving integrated sustainability through the interlinked areas of environmental, social, economic and governance activities, underpin Council's commitment to sustainability. Principles have been developed which further clarify how these areas will be considered by Council in carrying out its operations.

Governance:

- a) We value sustainability leadership and will demonstrate how sustainability can be practically implemented;
- b) We believe that sustainability should be intrinsic to all decision-making and will incorporate it as a fundamental component of all Council processes;
- c) We support understanding of the importance of sustainability and will improve sustainability awareness throughout Council and the community; and
- d) We recognise the importance of issues beyond our borders and aim to create a balance between local and global issues.

Environmental sustainability:

- a) We respect our natural resources and will work to protect and enhance these for current and future generations;
- b) We value our natural biodiversity and will work to protect and enhance local native habitat;
- c) We treasure our coastal areas and waterways and will work to maintain their health and special qualities;

- d) We will not undertake any actions that have a potential risk to cause serious harm to the community or the environment even in the absence of scientific certainty (the precautionary principle);
- e) We recognise the importance of access to fresh, local and sustainably produced food.
- f) Climate Change - Council is committed to a whole of organisation approach to reducing the impacts of climate change, from planning for future sustainable infrastructure, to modes of transport, planning considerations and community education

Social-cultural sustainability:

- a) We respect universal social justice and will work to improve community wellbeing and quality of life;
- b) We value social equity and believe that services, facilities and community amenities should be accessible and equitable;
- c) We support equal rights and constructive engagement with the community in decision-making;
- d) We will actively involve people from diverse linguistic, cultural and spiritual backgrounds.

Economic sustainability:

- a) We will use resources efficiently and responsibly and reduce our ecological footprint;
- b) We support sustainable asset management principles;
- c) We understand the impact of poverty on quality of life and will work to address disadvantage in our community;
- d) We value a strong local economy and will encourage the use of local businesses and resources in our operations;
- e) We believe in local economic growth that respects our natural heritage and values and will foster sustainable and green economic opportunities.

Appendix 2: Terms Used in This Plan

ABS Census	Australian Bureau of Statistics (ABS) undertakes a census every five years. The census provides information about the characteristics of the Australian population and its housing within small geographic areas and for small population groups. This information supports the planning, administration, policy development and evaluation activities of governments and other users. The Census provides a snapshot of the nation. Data gathered helps decide what funding is needed for infrastructure, community services and facilities.
Annual Report	Report on the achievements in implementing the Delivery Program and the effectiveness of the principal activities undertaken in achieving the objectives in the Community Strategic Plan at which those activities are directed.
Asset Management Strategy	A ten year strategy included in Council's Resourcing Strategy for the provision of asset and infrastructure resources required to implement the Community Strategic Plan.
Biodiversity	Has been described as the 'web of life' 'the variety of living things' or 'the different plants, animals and micro-organisms, their genes and ecosystems of which they are a part'.
Community	Includes residents, rate payers/land owners, business owners and operators, people who work in the local government area, visitors, government agencies, users of council services, local community groups and associations.
Community Goal	These are about the end result we want for children, adults, families, business and communities.
Community Indicators	Are a way to track trends in quality of life for the community and are used as a basis for improving community engagement, community planning and policy making.
Community Strategic Plan	A plan which identifies the community's main priorities and aspirations for the future of the local government area. This plan is for a minimum of ten years.
Delivery Program	Details the principal activities to be undertaken by Council to implement strategies established by the Community Strategic Plan.
Global Goals	Seventeen Global Goals adopted by the United Nations member states, including Australia, in September 2015 as part of the 2030 Agenda for Sustainable Development.
Governance	The values, policies and procedures Council and its staff adopt, to provide ethical, transparent and accountable local governance.
Green Technology	Technology that is considered environmentally friendly based on its production process or supply chain.
Infrastructure	Is built structures like roads, railways, airports, water supply, sewers, power grids, telecommunications, buildings and facilities.
Innovative	Using or showing new methods, ideas.
Liveable	The degree to which a city meets the needs of the residents who live there.

Appendix 2: Terms Used in This Plan

Long Term Financial Plan	Included in Council's Resourcing Strategy for the provision of resources required to implement the Community Strategic Plan. This is the point where long-term community aspirations and goals are tested against financial realities.
Objectives	Outlines a series of sub-goals required to achieve the Community Goals.
Operational Plan	Details the services and activities to be delivered by Council during the year.
Principles	Are a set of high-level statements or goals used to guide our thinking and activities. They provide a framework for decision making and action, and form the basis for developing action-oriented goals and objectives.
Quadruple Bottom Line (QBL)	A balanced and holistic approach to achieving sustainability. This means that social, environmental, economic and civic leadership considerations must be addressed in planning, decision making and reporting.
Quarterly Review	Reports on progress against indicators and major projects in our Delivery Program and Operational Plan.
Resourcing Strategy	Consists of four components, these are the Long Term Financial Plan, Workforce Management Strategy, Asset Management Strategy and the Information Management and Technology Strategy. The Resourcing Strategy is where Council outlines who is responsible for what, in terms of the issues identified in the Community Strategic Plan. The Resourcing Strategy focuses in detail on matters that are the responsibility of Council, and looks generally at matters that are the responsibility of others.
State of the City Report	Reports on progress achieved toward the Community Strategic Plan.
Strategies	How we plan to achieve the objectives.
Supporting Document	Council's aspirational strategies and plans. Supporting Documents include actions that are considered for resourcing as part of the Delivery Program.
Sustainability	There are many different views in what constitutes a 'sustainable community'. Wollongong City Council carries out its decision-making based on the principle of sustainability which is based on environmental, intergenerational, social, economic equity and good governance.
Stormwater Quality Improvement Device (SQID)	Stormwater Quality Improvement Devices are designed to remove a wide range of pollutants including sediments, metals, oils, nutrients, and gross pollutants from stormwater before it has a chance to join any natural bodies of water.
Vision	Our community's aspiration for how we want our city, our community and our lives to be in the future.
Wollongong	Refers to the whole of Wollongong Local Government Area.
Workforce Management Strategy	Included in Council's Resourcing Strategy for the provision of workforce resources required to implement the services Council is responsible for as outlined in the Community Strategic Plan. This Strategy addresses the human resourcing requirements of Council's Delivery Program.
