Sophie McCrea  
Our Draft Climate Change Mitigation Plan is now on exhibition

Hi there,

We have prepared our draft Climate Change Mitigation Plan 2023-2030 and invite your feedback by **30 October 2023**.

The plan has been built with input from the community. It builds on work already done to reduce emissions and confirms our pathway to Net Zero. We've suggested actions under three pillars - Communities in action, Empowering communities and Leading by example.

#### Communities in action

Opportunities for households and businesses to reduce emissions and gain from co-benefits such as reduced household costs and healthier environments.

#### Empowering communities

Actions Council will implement to support the community in emissions reductions aimed at delivering assistance where it is needed most.

#### Leading by example

Actions Council will take to reduce its own emissions to showcase leadership and best practice to the community.

Visit the [project page](#) to find out more and provide your feedback.

Kind regards,  
Sophie and the Engagement Team
