

ADOPTED BY COUNCIL: 9 DECEMBER 2019

PURPOSE

This Policy recognises that Council plays an important role in advocating public health outcomes and has a commitment to improving the natural environment and amenity of the local area by reducing the negative effects of smoking and use of e-cigarettes in public areas.

There is substantial evidence linking exposure to second-hand smoke with a range of serious and life-threatening health impacts including heart disease, cancer, asthma and other respiratory problems. Children exposed to second-hand smoke are at an increased risk of asthma, acute respiratory infections and other health issues.

In addition to the health impacts, cigarettes also contribute to street, beach and storm water litter and are considered as an environmental issue. The provision of smoke-free recreation areas can assist in reducing cigarette-butt litter and enhance our local environment.

POLICY INTENT

The main objectives of this policy are to –

- 1 Improve the health of community members;
- 2 Improve public amenity and maintenance of Council property;
- 3 Raise community awareness of the issues associated with smoking and e-cigarette use;
- 4 Provide community leadership in taking measures to protect the health and social wellbeing of the community; and
- 5 Minimise cigarette-butt pollution on Council-owned beaches, waterways, parks and other public open space areas.
