

SUSTAINABLE WOLLONGONG Op Shop Guide

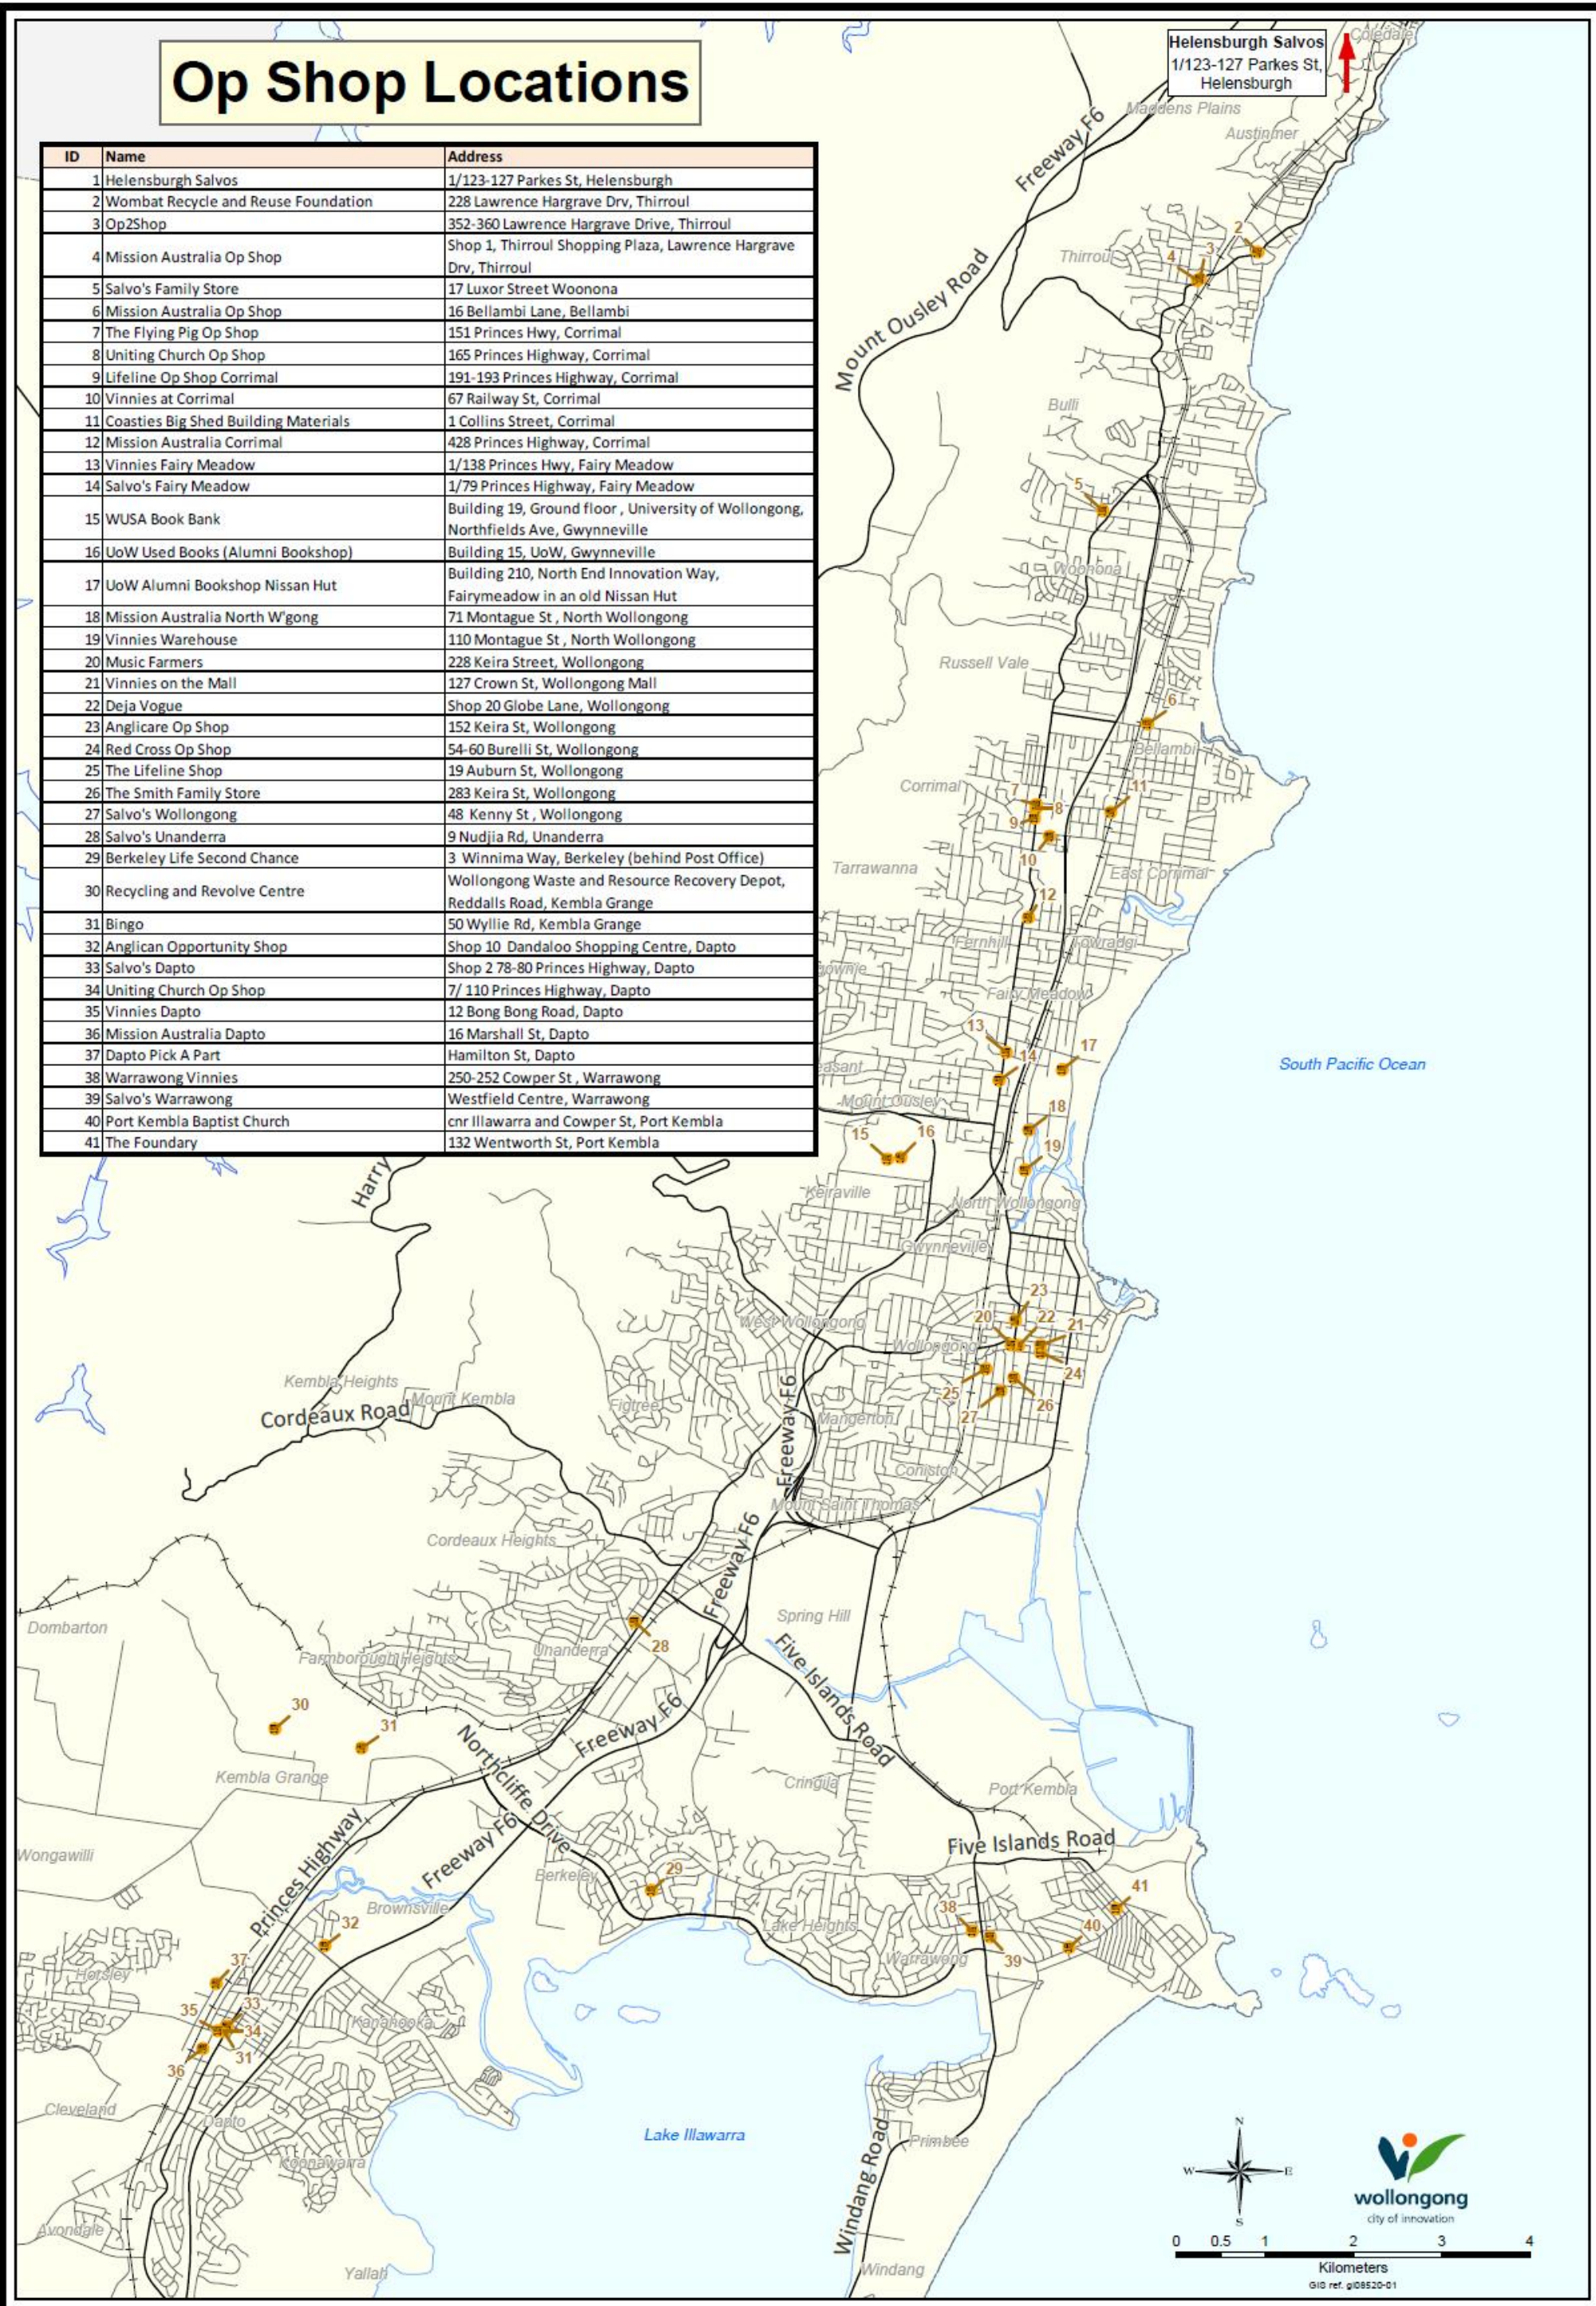

Choosing second hand clothing and household items is an important way to reduce waste and save valuable energy and raw resources which go into making new goods. Many op shops are run by organisations dedicated to community services. Plus the price asked for many good quality 'preloved' items is often a fraction of their original retail costs. A few local businesses that buy and sell second hand items are also listed below, but there are loads more, so start exploring!
