

Privacy Notification (Privacy and Personal Information Protection Act 1998 – Section 10) - The information that Council is collecting from you via this application may be personal information for the purposes of the Privacy and Personal Information Protection Act 1998. The intended recipients of the personal information are officers within Council. Any person may apply to inspect the application in accordance with the Government Information (Public Access) Act 2009. The supply of the information by you is voluntary and if you cannot, or do not wish to provide the information sought, Council will be unable to process your application. You may make application for access or amendment to information held by Council. You may also make a request that Council suppress your personal information from a public register. Council will consider any such application in accordance with legislation. Enquiries concerning this matter can be addressed to Council by telephoning 4227 7111.

Office Use Only	

To be submitted with a development application. If this form is not submitted with the geotechnical report, the report will be refused.

This form is essential to verify that the geotechnical report has been prepared in accordance with Council's geotechnical DCP and that the author of the geotechnical report is a geotechnical engineer or engineering geologist as defined by Council's geotechnical DCP. Alternatively, where a geotechnical report has been prepared for subdivision or is greater than two years old or by a professional person not recognised by Council's geotechnical DCP, then this form may be used as technical verification of the geotechnical report is signed by a geotechnical engineer geologist as defined by Council's geotechnical DCP.

SECTION 5 CHECKLIST

Declaration (Tick all that apply)	The following checklist covers the minimum requirements to be addressed in a geotechnical report. The checklist is to accompany the report. ☐ A review of readily available history of slope instability in the site or related land as per section 3.2.1 ☐ An assessment of the risk passed by all reasonably identifiable geotechnical hazards as per section 3.2.5 ☐ Plans and sections of the site and related land as per section 3.2.2 ☐ Presentation of a geological model as per section 3.2.3 ☐ Photographs and/or drawings of the site as per section 3.2.4 ☐ Classification of the site and related land per section 3.2.6 ☐ A conclusion as to whether the site is suitable for the development proposed to be carried out either conditionally or unconditionally as per section 3.2.7 Subject to the following recommendations and conditions: ☐ selection and construction of footing systems ☐ earthworks ☐ surface and sub-surface drainage ☐ recommendations for the selection of structural systems consistent with the geotechnical assessment of the risk ☐ any conditions that may be required for the ongoing mitigation and maintenance of the site and the proposal from a geotechnical viewpoint ☐ highlighting and detailing the inspection regime to provide the PCA and builder with adequate notification for all necessary inspections
