Climate Friendly Planning Framework

We value and work to protect our local environment. That's why we want to make some updates to our Local Planning and Assessment Framework. Before we get started, we want to hear from you about what the changes to the planning framework could look like.

So far, we've developed a Discussion Paper to present our ideas on how we can make developments in our city more climate friendly. Now it's your turn to take a look at the Discussion Paper and share your feedback what can be improved and what other ideas you'd like to see happen.
